INSTITUTION for the DEAF and DUMB and the BLIND.

Erected on Five acres of Land on the Newtown Road. The Foundation Stone was laid by His Excellency the Earl of Belmore, on April 3rd, 1871. Opened publicly in February, 1872.

Hints to Parents.

Written for the Ulster Institution for the Deaf and Dumb, and the Blind, by the Reverend John Kingham, *Principal*.

The time allowed for the education of the Deaf and Dumb in our Institution being *necessarily so very limited*, it is of the greatest importance that the attention of their friends should be directed to the *early* and *proper* training which some children ought to receive. If there were only a willing mind, parents and friends might do much by preparatory training at home, to facilitate the progress of these children on admission to our Institution, as well as to benefit them when they leave it.

I. UNEDUCATED DEAF AND DUMB CHILDREN.

Such children could easily be taught to write on a slate, or otherwise, in their own homes, or with their brothers and sisters in the common school of the neighbourhood. When the child can form letters on a slate, it should be taught the manual alphabet. This may be done thus. Write the letter *a* on a slate, draw the child's attention to it, then teach it to put its hand in the position indicated in the engraved manual alphabet for *a*. Repeat this till the sight of the letter readily suggests this particular position of the hand. Let the instructor then form this letter on his own hand, and see if the child can write the letter. In the same way proceed with the other letters. The alphabet having been thus learned, give the child names of objects or animals with which it is familiar, beginning with words of three letters, as *hat, dog, pig, cow, pin, &c.* Thus: Write very plainly the word *hat*. Then let the child form the letters *h a t* on its fingers, and next point to a hat. Let this process be frequently repeated, till the letters come to be associated with the object and fixed in the memory of the child. This being done, blot out the word, point again to the object, and see if the child can write *hat*; and, if so, proceed gradually to teach other words in the same manner, such as those for *parts of the body, articles of dress, furniture, tools, &c.* Pictures of objects may be used with much profit.

Colours and numbers might also be taught. In teaching numbers, give the child a few objects to count, and let them be written down thus: 1, *one*; 2, *two*; 3, *three*.

II. DEAF AND DUMB PUPILS AT HOME DURING VACATION.

At this time they should be taught the names of *parents, brothers, sisters, uncles, aunts, cousins, &c.* Thus: *Uncle* Andrew Brown, *Aunt* Charlotte Dixon, &c. The names of *places*, particularly the *residence of friends, neighbouring towns &c.*, might be given. When the name is first taught, the person or place named must be shown to the child.

Various operations connected with agriculture and with the trades carried on in their neighbourhood, might be explained to these children, which would be very difficult to teach in an Institution: for many of these must be seen to be fully understood.

Induce pupils whilst at home to spend some time *daily* in revising lessons in their school-books.

III. DEAF MUTES WHO HAVE LEFT SCHOOL.

When pupils finally leave school, much may be accomplished by friends in the way of carrying forward their education. They should converse much with these children, in very simple language, on religious and other subjects, by means of the manual alphabet and by writing. The use of signs, except when trying to explain difficult words, should be avoided and discouraged. For example, instead of signing to the child, *Bring me a chair*, write these words or spell them, and always oblige the child to write or spell what it has to express, and correct for it any errors in the language it employs. By adhering to this course a desire will be excited in the minds of these children to acquire and keep up a correct style in the use of written language—an attainment on their part of the greatest difficulty, and yet of the highest importance.

Attention is specially directed to the importance of having these pupils immediately apprenticed to some trade, or occupied in some useful employment on their return home, by which they may be kept from acquiring idle habits, and be put in the way of earning their own livelihood. The Committee will assist when necessary, in carrying this out.

In the management of these children, let parents and friends beware of the extremes of over-indulgence on the one hand, or of undue severity on the other. Such children suffer very much from injudicious kindness, or from violent and rude opposition. In general they should be treated very much like other children, and taught to feel in every respect that they are responsible beings.

Resolutions passed at the Twenty-third Annual Meeting, held at the Institution, Newtown-road, on Monday Afternoon, 27th October, 1884.

Arthur Renwick, Esq., M.D., in the Chair.

Moved by Arthur Renwick, Esq., M.D.

Seconded by the Hon. Charles Campbell, M.L.C.:—

"That the report now read be adopted, and, together with the balance-sheets, be printed for circulation." Carried unanimously.

Moved by the Rev. S. Wilkinson,

Seconded by the Rev. R. Dey:—

"That the thanks of this Meeting are hereby given to the Government and Parliament for the annual donation of £450, in aid of the funds of the Institution." Carried unanimously.

Moved by the Rev. Daniel Allen,

Seconded by John Roseby, Esq., J.P.:—

"That the following gentlemen do constitute the Committee for the ensuing year—*President*: Dr. Arthur Renwick; *Vice-Presidents*, the Rev. James Milne, M.A., and Mr. F. R. Robinson, J.P.; *Hon. Treasurer*, Mr. Robert Hills; *Hon. Secretary*, Mr. Ellis Robinson; *Committee*: Mr. J. H. Goodlet, J.P., Mr. J. S. Harrison, Mr. James Henry, Mr. B. O. Holtermann, Mr. J. R. Linsley, J.P., Mr. J. R. Love, Mr. E. Saber, Mr. G. F. Wise, and Mr. Henry C. Fraser, and that the following do constitute the *Medical Staff—Hon. Consulting Physician*: Dr. Arthur Renwick; *Hon. Physician*: Dr. W. Edward Warren; *Hon. Aurist and Oculist*: Dr. Thomas Dixson; *Acting Hon. Ophthalmic Surgeon*: Dr. Cecil Morgan." Carried unanimously.

TWENTY-THIRD ANNUAL REPORT

OF THE

NEW SOUTH WALES

Institution for the Deaf & Dumb & the Blind,

For the Year ending September 30th, 1884.

In presenting their Annual Report of the progress of the Institution for the past twelve months, the Directors again have the pleasing duty of congratulating the subscribers on the satisfactory advance of all the various departments of the Institution.

1.—Number of Inmates.

The following Table will show the admission and discharge of pupils during the year:—

	Deaf & Dumb.		Blind.		Total.	
	Male.	Female.	Male.	Female.	Male.	Female.
Number present at date of last annual report... ...	35	27	10	11	45	38
Ditto admitted since ...	3	6	...		3	6
	38	33	10	11	48	44
Discharged since	3	5	2	1	5	6
Present at date of this report	35	28	8	10	43	38

Of those who have left one was apprenticed to a sail and tent maker who gives an excellent account of his progress and good qualities; two have been admitted into the Industrial Blind Institution, Woolloomooloo; six have returned to their friends in Queensland, and two to their friends in this colony. One of the pupils of former years has returned to be employed as a domestic servant in the Institution, and gives great satisfaction.

2.—Financial.

The income for the past twelve months on General Fund account was £3828 14s. 4d., and the expenditure (including £650 transferred to Building Fund account) £3804 2s. 7d., leaving a credit balance of £24 11s. 9d. The subscriptions received amount to £1882 8s. 8d. being £8 15s. 8d. more than for the previous twelve months. The increase has been wholly from city subscriptions. The country subscriptions show a considerable decrease. Though strenuous efforts have been made they do not amount to as large a sum as they should. Most of those kind friends who have for some years helped us continue to work heartily for the Institution, but from numerous causes the lists, with some exceptions, are small and the amounts not encouraging.

In connection with these facts it should be borne in mind that the Institution has most urgent claims on the country residents from the fact that a large number of the pupils are admitted from the country, and as a rule their parents or friends are not in a position to contribute a very large amount for their children.

The special donations and legacies have been as follows :—

To General Fund Account.

Donation	F. H. Dangar	£30	0 0
,,	Estate late C. D. Smith	20	0 0
,,	A. W. Gardiner, Wellington, per Bishop of Bathurst	12	10 0
,,	D. Ryrie, Coolringdon, Cooma	10	10 0

To Building Fund Account.

Legacy late	Henry Gomm	252	0 0
,, ,,	George Fullerton, M.D.	200	0 0
,, ,,	Joseph Dole	100	0 0
,, ,,	Mrs. Jane Steer	50	0 0
,, ,,	Mrs. Frederick Oatley	25	0 0
,, ,,	"Friend," per Messrs. Barker and Burnell	10	0 0
Donation—	Robert Chadwick	50	0 0

To Perpetual Subscribers Fund.

Donation—	John Struth	500	0 0
Legacy late	Henry Phillips	100	0 0

The income from School-fees was £927 6s. 8d., and clothing repayments £125 18s. 11d. The total of these amounts being nearly the same as last year.

The Committee are happy to report that the funds which have been collected for some time to meet the cost of the erection of the New Wing have proved equal to requirements, and this New addition was opened FREE OF DEBT, although it has absorbed nearly the whole of the funds at the disposal of the Committee, and consequently the large amounts which appear in the balance sheets as principal and interest on legacies and special donations will not again appear.

There are some other bequests yet to be realised, and the Committee note with great pleasure the fact that the more wealthy of the Community are recognising the claims of this charity on their beneficence, and evince a growing desire to help in forwarding its good work.

3.—IMPROVEMENTS AND ADDITIONS.

The Directors are highly pleased to be able to announce the completion of the New Wing, which was referred to at length in the last annual report, and they are glad to state that the addition meets with the full approval of all who have inspected it. It has not yet been occupied, a few details being required to be carried out to fit it for use. The New Wing was opened publicly with a musical entertainment given by the pupils and some kind friends, which was pronounced by all who were present to have been a great success. Subscribers and friends are respectfully invited to inspect this new structure.

During the erection of the New Wing, the Directors determined to make several other improvements and simultaneously carried out the asphalting of a footpath all around this building, as well as repairing the asphalt previously laid down. Opportunity was also taken to have the playground formed and grassed, which will add much to the children's comfort.

Various contracts for painting and cleaning portions of the old building have been carried out during the year, and the whole of the premises is now in good order and well cared for.

The carriage drive has been fully remade and asphalted, much to its improved appearance, and also to the comfort of visitors.

Gas has been laid on to the Hospital and some improvements made in that department.

Plans and estimates are being prepared for the tar-paving of the front footpath, for which Parliament has voted the necessary cost £200; and this work will be carried out shortly.

4.—General.

The completion of the New Wing will enable the Directors to relieve the crowded portions of the old building and re-arrange other portions, as well as to make some internal additions which experience has proved to be necessary and desirable.

The increased accommodation at disposal will enable the Directors to admit a larger number of pupils. With a view to bringing all the deaf and dumb and blind children of the colony within the scope of the Institution, circulars and printed forms are being sent to the leading residents and others in the country districts, to urge them to report such cases, so that steps may be taken for their admission.

The Annual Examination was held in December last, in presence of a numerous assemblage of friends and subscribers, and passed off in the usual satisfactory manner.

The health of the children has not been so good as usual, and doubtless the unsatisfactory state of the weather has contributed not a little to this, but happily under the care of Dr. Warren, the Medical Officer, and the attention of the matron and assistants, the health of the children has been completely restored.

5.—Board of Directors and Staff.

The Committee have with deep regret to announce the decease of Mr. Henry Phillips, who for seventeen years had given his earnest labours for the welfare of the Institution, and for twelve years occupied the position of Hon. Treasurer.

Mr. Robert Hills has been elected to the office of Hon. Treasurer, vacant by the death of Mr. Phillips.

The Rev. James Milne has been absent from illness, and Mr. J. R. Linsley has been absent on leave, visiting Great Britain.

The number of Committee Meetings held during the year has been 25—12 monthly and 13 special.

The Directors desire to record their warmest thanks to the ladies who form the Visiting Committee, for their continued active interest and assistance in managing the domestic concerns of the Institution.

The lady who held the office of Teacher of the Blind, at last report, in consequence of circumstances connected with her own private business matters, having resigned her position in order to return to England, Miss Watt was appointed as her successor, and has made satisfactory progress with the Blind children.

The thanks of the Directors are due to Dr. W. Edward Warren, for his professional skill and attention to the children whenever required, also to Dr. Thomas Dixson, the Honorary Oculist and Aurist, and the Directors are glad to announce that Dr. Cecil Morgan has accepted the position of Honorary Ophthalmic Surgeon.

Thanks are also due to Messrs. T. E. Hall and J. F. Paige, for their services in auditing the accounts.

ARTHUR RENWICK, M.D., *President.*
ELLIS ROBINSON, *Hon. Secretary.*

The following Extracts from the Report for the year 1883 of the Inspector of Public Charities, presented to Parliament, are given for the information of Subscribers :—

INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND.

"The progress and condition of this Institution continues most satisfactory. The health of the children was good throughout the year, and the excellent care and training bestowed upon them, was evinced by their creditable appearance and intelligence as shown at the last public examination.

"The articulation class for deaf mutes has been continued, but under somewhat difficult circumstances, owing to want of means for isolation.

"It is said children taught by this system should be entirely separated from mutes, accustomed to express themselves by signs.

"Heretofore it is to be feared that on the admission of deaf mutes into the Institution, as in a large majority of instances they had previously been medically examined, it was too readily assumed that their deafness was incurable. Henceforth it is arranged that when any child is found to possess the sense of hearing, even in a remote degree, he is to be kept under the observation of a specialist, and the case regularly reported upon.

"There is little change in the numbers in the Institution ; but the dormitories are full, and in order to anticipate sudden calls for extra accommodation, the Committee have been occupied in providing new dormitories and isolating wards.

"On the ground floor of the new wing arrangements have been made for workshops, where a course of industrial training and handicraft may be given to the elder children."

THE following is a resumé of Subscriptions collected during the year in the Country districts and Queensland, full details of which are given on other pages. The ladies and gentlemen named are warmly thanked for their generous and valuable assistance :—

COMPOSITION BY THE PUPILS.

The following specimens of composition, or essays, are the work of some of the pupils (the subjects are of their own choosing), and receive no correction except such as their respective writers can make on a careful review, when the prominent errors are pointed out by a Teacher. In judging them it is well to remember the ages of the writers, and the length of time at school; and that very few, if any, had acquired a knowledge of written or spoken language, previous to their admission into the Institution.

ABOUT THE NUMBER ONE.

By W. M.—1 year and 8 months.

There is only one God and one Saviour of men. January is the first month of the year. Sunday is the first day of the week. Mercury is the first planet from the sun. The earth has one moon. Egbert was the first king of all England. Saul was the first king of Israel. I have one nose, one head, one body, and a soul. The first commandment is, "Thou shalt have no other gods but Me." There is one clock in the school-room, one in the dining-room, and one in the sitting-room. On the first day God made light.

DAVID.

By J. D.—3½ years at school.

David was the son of Jesse, and a good king of Israel. He was a keeper of sheep at first. He killed a bear and a lion. He loved God very much. David prayed to God seven times a day. He killed Goliath with a sling and stone. Saul wanted to kill David, but God took care of him. He loved Jonathan, the son of Saul. Saul and Jonathan were killed on Mount Gilboa. David married Michal, the daughter of Saul at first; afterwards Bathsheba and Abigail. He was the second king of Israel. Samuel anointed him to be king. David was called "The man after God's own heart," also "The sweet Palmist." He had a son named Absalom who was hanged by the hair. Absalom broke the 5th commandment by rebelling against his father. David was very sorry when Absalom was slain. He wept and said, "Oh, Absalom, my son, my son," &c. He reigned 40 years. His son Solomon succeeded him.

ABOUT THE ROMANS.

By S. L.—3½ years at school.

The Romans under Julius Ceasar first invaded Britain about 55 years B.C. Ceasar laneded at Dover. The Britons were defeated and sued for peace. Ceasar had to return to Gaul. He came back to Eng the next year about

to pay him and returned to Gaul. Cassivelanus was the leader of the British 54 B.C. Julius Ceasar imposed a yearly tax which the Britons were forced army. Caractacus was another leader of the British army. The Britons fought against the Romans but were defeated. Caractacus was taken prisoner to Rome. He exclaimed, "Is it possible that a nation possessed of such magnificence at home should envy me a humble cottage in Britain. The Roman Emperor sent his generals, viz., Vespasian and Paulinus to England. He was taken captive by Ostorius and Scapula, and carried to Rome. The Romans stayed in England for yearly 400 years. The Britons were very brave and warlike though ignorant and uncivilized.

ABOUT OUR ANNUAL MEETING.

By J. S.—4 years at school.

The Annual Meeting of this Institution took place yesterday. Many people came to see it. Dr. Renwick was chairman. Laura Begent signed a hymn very nicely. A lady gave her one shilling. Miss Pemell and Mrs. Hannam kindly gave us lollies and biscuits. The Blind pupils sang very nicely. The elder pupils wrote on the board and did sums in Interest and Practice. Many people saw through the Institution. Some of the adult Deaf and Dumb came here yesterday and spent the evening with us. We had games and fun till 9 o'clock. Lady Hay kindly said that we shall have a picnic to Rose Bay on 12th November. We will ride on buses. We will enjoy it very much, because Sir John and Lady Hay are always so very kind. The meeting began at 3 o'clock and ended after 5 o'clock. We had buns for tea and enjoyed a pleasant evening.

GENERAL GORDON.

By M. J.—5 years at school.

General Gordon was born at Woolwich near London, A.D. 1833. He is now in the city of Khartoum in Egypt. He is a brave and God-fearing man. Many people love him. He fought against the Mahdi. He is a grand and noble British soldier. At 15 years old he entered the Royal Artillery Crops. He went to put down the rebellion in China. He is called "Chinese Gordon," because he did his duty so well there. He always prays to God for help and guidance. He was without human help for some months in Egypt, but God was with him. We hope that he will not get killed, also that he will put down the rebellion, and that when the war is ended he will return to England. He will be greatly honoured, and have a grand welcome from the English people. The British people are proud of him. Lord Wolseley is gone to Egypt to relieve General Gordon. He too is a famous British General.

BOADICEA.

By J. R.—7 years at school.

Boadicea, the Queen of the Iceni. was treated very cruelly by the Romans, she commanded 230,000 soldiers, she burned London and put 70,000 men to death. At last she was overcome and lost 80,000 men. She poisoned herself lest she should fall into the hands of the Romans. Paulinus the Roman commander fought against her. The Picts and Scots were very troublesome then. They plundered and destroyed the country. The Picts were a wild race from the East of Germany. The Emperor Adrian built a wall from Carlisle to Newcastle-on-Tyne, A.D., 120. The Ancient Britons were idolaters. They painted their bodies with a blnish color. They worshipped the

oak and mistletoe, also rocks and fountains. Their priests were called Druids. They wore long white robes and a serpent's egg on their heads. They wandered very much from place to place. They sacrificed hundreds of human beings to their idols. They knew nothing of Christianity then. Many years afterwards the humane religion of Christ was introduced into England.

ABOUT PICNICS.

By G.M.—2½ years at school.

We like picnics very much. We often go for outings. We get picnics often to Coogee Bay, Manly Beach, Gladesville, Clontarf and Rose Bay. Lady Hay is very kind to us. Her grounds at Rose Bay are very pretty: she has swings, cricket, quoits and other games for us. Lady Hay has many servants. She has nice gardens. Rev. Thomas Kemmis scrambles lollies on the grass for us and makes fun. Rose Bay is very beautiful. We enjoy it very much. Lady Hay invites us to go for a picnic to her house every year. We are grateful to Sir John and Lady Hay for their kindness. She has fountains near her house. Gladesville Asylum is a large and nice place. The poor lunatics are in it. We visited it and got oranges. Mr. Jeanneret kindly gives us a free trip on his steamers and Mr. Roberts always lets us go free on the tram. Picnics enable us to see and enjoy many nice places and things.

HENRY I.

By F. H.—3½ years at school.

Henry I. was born at Selby, in Yorkshire. He began to reign A.D. 1100 and reigned 35 years. He married Matilda, daughter of Malcolm III., King of Scotland. He had one son and two daughters. He was the son of William II. He had a son named William who was drowned coming from Normandy A.D. 1120. Matilda, and others. He united the Saxon and the Norman lines. The Knights Templars were established A.D. 1118. He invaded Normandy, defeated his brother Robert and took him prisoner A.D. 1107. His brother Robert's eyes were put out and he was imprisoned for 28 years. This was very cruel of Henry. He was brave, accomplished, and learned, but cruel and unjust.

BOTANY.

By L. B.—7 years at school.

Botany is the science which teaches us about trees, flowers and plants. Botanists like it very much. Botany is a very interesting and pleasant study. The tree has roots, stem, branches and leaves. Some plants send up only one stem at first, but others send up two shoots. Grasses are monocotyledon, because they have only one stem, but the pea, bean and potatoe are dicotyledons because they send up two leaves at first. Trees have rings in the stems to show their age. The roots of trees derive nourishment from the soil. The seed dies but the roots spring from it. The sap flows up through the stem, branches and leaves of the tree. If a tree is ring-barked, then it dies. The bark of the oak is very useful for tanning leather. The stem of trees is very useful for timber, and the fruit for food. In winter the leaves of trees fall off. In spring young buds and leaves come out. In autumn the fruit is ripe. The blossoms or flowers look very beautiful in spring. Winter is an emblem of old age; spring of youth: summer of manhood. The leaves of some plants are useful for food as the cabbage, lettuce,

tea tree, &c. Mr. Moore, Rev. R. Collie, Allen Cunningham and others are clever Botanists. There are many kinds of trees, as the gum oak, Mahogany, cedar trees. &c. Flowers emit oxygen and take in Carbonic acid gas. Cedar trees grew plentifully on Mount Lebanon. Hiram king of Tyre gave cedar trees to Solomon to build the temple. There are many kinds of flowers as the violet, rose, sweet William, &c.

LORD NELSON.

By F. S. B.—6 years at school.

Lord Nelson was a great general who was born in 1758 in a village in Norfolk where his father was a clergyman. His brother William and he attended school together at Norwich. A great fall of snow occurred one night and it was doubtful whether the two brothers would be able to go to school next day. Their father said, "If you find the roads really dangerous you may return. But if you can proceed, do so, I leave it to your honour." His brother William who was anxious to stay at home urged Horatio to return to the parsonage. But brave Horatio resolved to persevere. "We must go on," he exclaimed. "Remember William it was left to our honour." He left school and entered the Navy as a midshipman. He sailed with Captain Phipps on a voyage of discovery to the Arctic Ocean. One night the young hero stole from the ship and set off over the ice in pursuit of a bear. He was soon missed and his comrades became exceedingly alarmed for his safety. In the morning he was seen struggling with the bear which he had wounded with a musket shot. The Captain, seeing his danger, fired a gun which had the desired effect of frightening away the ferocious beast. The boy returned to the ship. He was sternly reprimanded for his conduct. The Captain was very angry with him. He said to him, "Why you were in great danger?" He answered that he wished to get and carry the skin of the bear to his father. He returned to England. He went to Egypt to fight against the French at the battle of Nile A.D. 1798. He won both the Nile, Copenhagen and Trafalgar. His death by a gun-shot at Trafalgar, caused great sorrow in the English nation. He was buried in St. Paul's Cathedral.

SPEECHES AND PROCEEDINGS

AT THE

Twenty-Third Annual Public Meeting.

(*From the Daily Press, October 28th, 1884.*)

The New South Wales Institute for the Deaf and Dumb and the Blind is, undoubtedly, a deserving Institution, and the fact is, fortunately, thoroughly recognised, not only by the Parliament of this colony, as testified by an annual grant of £450 towards meeting the current expenses of the establishment, but also by a generous public. The more wealthy of the community, especially, by a commendable display of liberality in its support, indicate how heartily they admit the claims of the institution on their beneficence and evince a growing desire to help in forwarding its good work. Occupying a prominent position on the Newtown-road, erected on an almost triangular piece of ground, five acres in extent, just beyond Codrington-street, and nearly opposite the University, the fine block of buildings that now forms the temporary home of upwards of 80 children, the majority of whom are deprived of the power of speech and the sense of hearing, whilst the remainder are afflicted with want of vision, the New South Wales Institution for the Deaf and Dumb and the Blind attracts the attention of every passer by. It is, indeed, a noble monument of charity, as well as a useful refuge for the unfortunate. The premises have been constructed in three portions, and were originally much smaller than they are to-day. Entering by the principal doorway, what is now designated the "old" building—not because it is at all old, in the ordinary acceptation of the term, but simply because other premises have been added to it during recent years—the visitor finds himself in a comparatively small passage. On the left is an office; on the right, the visitors' room. Further along the passage are a couple of cosy sitting rooms for the use of the officers of the institution, and near one of them, on the left wall of the passage, is a marble tablet just placed there by the committee to perpetuate the memory of the late Mr. Henry Phillips, who departed from this life on the 30th of last March, after having as a member of the committee, earnestly laboured for the welfare of the institution throughout 17 years, during 12 of which he filled the office of honorary treasurer. At the end of the passage is a large dining-room, where the children take their meals, with kitchen, scullery, and two storerooms adjoining. On the ground floor of the "old" building is also, near the new wing, the blind children's school-room. On the other side of the passage is a work-room, where the little ones' nimble fingers are at times busily employed in making fancy work of all descriptions, with wool, silk, &c., and a small room in which a class of the deaf and dumb

assemble in order to learn articulation by a method of truly teaching the dumb to speak, imported from Germany, whither, we have it on the authority of the Hon. Charles Campbell, the excellent system was introduced from old England. On the first floor of the "old" building are officers' quarters, a boys' dormitory containing 20 beds, and a room for girls similarly furnished. There are also, of course, lavatories and dressing rooms. On the second floor are boys' and girls' dormitories, containing respectively 16 and 14 beds. From this floor the boys will be removed to the new wing as soon as possible, and the accommodation thus rendered vacant will be utilised for girls. The first addition to the "old" building was made about five years ago, and now forms the right wing of the institution. On the ground floor is a board-room, where the committee meetings are held. This room contains two very handsome vases, kindly presented by the Japanese Commissioners to the Sydney International Exhibition, and a peculiar looking trophy presented by Mr. Malbon, formerly secretary to the Pyrmont Bridge Company, and made by him and shown at the exhibition. In the rear of the board-room is the deaf and dumb children's school-room, and above it is the hospital, or rather a ward used as a hospital when required, which has fortunately been but very seldom. At present it is converted into a sleeping apartment. The second enlargement of the institution was finished about three months ago, and it is extremely gratifying to know that, although the erection of the new wing has involved an expenditure of upwards of £10,000, the funds collected from time to time to meet the cost proved equal to requirements, and the new wing was opened free of debt. The completion of the new wing will enable the directors to relieve the crowded portions of the "old" building and re-arrange other portions, as well as make some internal additions that experience has proved necessary. The increased accommodation now at disposal will also enable the directors to admit a larger number of pupils: and with the view of bringing all the deaf and dumb and the blind children of the colony within the scope of the institution, circulars and printed forms are being sent to the leading residents and others in the country districts, urging them to report such cases so that steps may be taken to secure their admission. In the basement of the new wing there is a dairy, also a space now used as a covered-in play ground, but intended to be eventually transformed into workshops. On the first floor is a hall, measuring 80 feet x 40 feet, where entertainments are given and public meetings held. It is approached from the front up a wide flight of steps, and through a handsome porch. On each side of the chief entrance is a shop or stall, measuring 12 feet x 13 feet, in which are deposited fancy articles made by the children for sale. At the other end of the hall is a large platform, the back part of which, when divided from the rest by sliding doors, will be used as an officers' sitting room. Stone stairs lead from the hall to three floors above. On the first and second there are officers' bedrooms, lavatories, bath-rooms, &c., and on the third, a boys' dormitory extending nearly the whole length of the new wing. The dormitory at present contains 20 beds, and there is ample room for as many more. Boys now located in the "old" building will be removed to this dormitory early next year. By means of another lot of stone stairs access is gained from the dor-

mitory to the "old" building, and also to the basement. At the other end of the new wing a square tower rises several feet about the main roof, and from it can be obtained a magnificent view of the city and suburbs and of the picturesque country for miles beyond in every direction. The new wing is architecturally in keeping with the other portions of the institution, being built of bricks, cemented, with slated roof, and on a concrete foundation. It is perhaps hardly requisite to say that the children are provided with capital playgrounds; but it may be added that the grounds surrounding the institution are nicely ornamented with shrubs and flowers, except near the Darlington-road —better known perhaps as the Old Newtown-road—where for them is substituted a well-stocked kitchen garden.—*Daily Telegraph.*

The twenty-third annual meeting in connection with the Institution for the Deaf and Dumb and the Blind was held at the institution, Newtown-road, yesterday. The chair was occupied by Dr. A. Renwick, who is president, and there was a very large number of persons present, amongst them being the Hon. C. Campbell, M.L.C.; Mr. B. O. Holtermann, M.L.A.: Messrs. F. R. Robinson, J. Roseby, J. S. Harrison, J. Graham, G. F. Wise, J. R. Love, H. Hargraves, Ellis Robinson, Mark Myers, Dr. Hogg, Dr. Garran, the Revs. S. Wilkinson, D. Allen, E. D. Madgwick, and R. Dey; Lady Hay, Lady Robertson, and many other ladies who take an active interest in the institution.

The Hon. Secretary (Mr. Ellis Robinson) read the 23rd annual report, which will be found on previous pages, and in the absence of Mr. Hills, Hon. Treasurer, Mr. Robinson also read the balance sheets.

Dr. Renwick moved,—"That the report now read be adopted, and, together with the balance-sheets be printed for circulation." He said that in submitting this motion he intended to be brief, as he was aware there was an ardent desire amongst those present to see or hear the performances of the children. Glad as he was to see so large an assemblage, he regretted the absence of many friends of the institution, who, he had no doubt, had gathered at the funeral of the Hon. J. Frazer, who had been a life governor of the institution, and had always taken a deep interest in its welfare. He also regretted the decease of Mr. Henry Phillips, who, for 17 years had been a member of the Committee of the Institution and for twelve years had held the position of Hon. Treasurer. The report, he thought, spoke for itself. It was brief and to the point, and it would carry to the minds of unbiassed persons the full conviction that the institution was well managed, not only with regard to its internal concerns, but also in regard to its general financial management. He was happy to state that the fine hall in which they were assembled had been erected and completed free of debt, and he had no doubt they would see from the appearance and performances of the children that they had been well attended to during the past year. The annual examination of the children did not take place at this meeting. The children were only brought before them now to give them an ante-taste, as it were, of what they could do. The real examination of the children would take place two or three months hence, and he would invite those who take an interest in them to attend it and see for themselves the rigorous tests which were applied

to them, the progress they had made, and the advantage to such children of such an institution as this. In regard to charity for the purpose of teaching the blind he thought it was rather erratic. They had three kinds of management in connection with it, and he was of opinion that it would be well if all matters connected with the deaf and dumb and blind were collected under one managing body. (Cheers.) He knew also that among those who had considered the matter this view was general, although it was admitted that difficulties existed in the way of amalgamating the various institutions. He wished it to be understood that this institution was not a hospital. Children were not taken to it to be cured of complaints, but to enable them to obtain an education which would enable them to discharge the duties of citizenship in the colony. They taught them all the elements of an ordinary education, and they taught the blind music in addition, as well as some other little matters, and in this respect he was glad to acknowledge the labours of a lady who for some years had gone to the institution to instruct the deaf and dumb in the art of drawing. There were others who went there to assist in the work, but taking the whole matter into consideration they did not profess to do more than give the children a general education. The institution had now obtained an excellent reputation throughout the colonies and deservedly so considering the labours of the master and matron, who for so many years had care of the children. He was glad to be able to state that Mr. Watson's labours and experience were so universally recognised that he had been invited (and the Committee of this Institution were only too happy to accede to the proposal) to report on the South Australian Institution for the Blind and Deaf and Dumb at Adelaide, and doubtless from the suggestions and criticisms made by Mr. Watson in his report, the management of the Adelaide Institution would derive valuable and important information. As president of the institution he would express his thanks to the ladies who visited it and regulated its internal management. A deep debt of gratitude was due to them for their gratuitous services, and he might say that under their direction the internal management had become almost perfect.

Hon. C. Campbell seconded the motion. He said that their president's address left him little to say. He thought the institute deserved general support. Christian, Jew, Agnostic, and Mahommedan must feel an interest in the work in which it was engaged. No one who considered the subject required his words to be convinced of the importance of giving those who were blind and those who were deaf and dumb the means of communicating with their fellow-creatures. It was satisfactory to learn, as they might learn by examination of the children, that under the present system of tuition they were displaying faculties which proved them to be equal, if not superior, to their more fortunate youthful fellow-creatures.

The motion was carried unanimously.

The Rev. S. Wilkinson moved,—"That the thanks of this meeting be given to the Government and Parliament for the annual donation of £450 in aid of the funds of the institution." He said he only desired to express his belief that the Government could make no grant which would give more satisfaction throughout the length and breadth of the

colony, and that they were fortunate in having such a master as Mr. Watson, who appeared to be a father to the children, and to be regarded by them as one of their dearest friends.

The Rev. R. DEY seconded the motion, and it was carried unanimously.

The Rev. D. ALLEN moved,—"That the following gentlemen do constitute the committee for the ensuing year :—President, Dr. A. Renwick ; vice-presidents, the Rev. J. Milne and Mr. F. R. Robinson; hon. treasurer, Mr. R. Hills ; hon. secretary, Mr. Ellis Robinson ; committee, Messrs. J. H. Goodlet, J. S. Harrison, J. Henry, B. O. Holtermann, M.L.A., J. R. Linsley, J. R. Love, E. Saber, G. F. Wise and H. C. Fraser ; and that the following do constitute the medical staff : Hon. consulting physician, Dr. A. Renwick ; hon. physician, Dr. W. E. Warren; hon. aurist and oculist, Dr. T. Dixson; acting hon. ophthalmic surgeon, Dr. Cecil Morgan."

The motion was seconded by Mr. J. ROSEBY, and was carried unanimously.

This concluded the formal portion of the proceedings. Several of the blind children afterwards sang selections, accompanied by Miss Watt, their teacher, on the piano, and two also played excellently on the same instrument. A class of children who are engaged in learning the articulation system of communication, gave evidence of the progress they had made by carrying on conversations with Miss Kernohan, their teacher. Illustrations were also given of the rapid manner in which deaf and dumb pupils, and blind pupils, communicate their thoughts to each other, and how by dumb show a mute will endeavour to express the sentiments of a poem. Means were also taken for exhibiting the knowledge possessed by the children generally of history, writing, arithmetic, and incidents of recent occurrence.—*S. M. Herald.*

NEW SOUTH WALES

Institution for the Deaf and Dumb and the Blind,

NEWTOWN ROAD, SYDNEY.

CLOTHING REQUIRED.

Each child on entering the Institution must be supplied with the following quantity of Clothing, which, with a few additions and repairs, it is anticipated will last for twelve months :—

For Boys.

2 Suits for week-day wear
1 Suit for Sunday ditto
4 Shirts, day—white or crimean
2 Ditto night
6 Pairs Socks
2 Caps or Felt Hats
6 Collars
6 Handkerchiefs
2 Pairs Cotton Braces
2 Neckties
1 Hair and 1 Tooth Brush
1 Rack and 1 Fine Tooth Comb
2 Pairs Boots.

For Small Boys.

3 Holland Pinafores may be supplied.

For Girls.

3 Dresses for week-day wear
1 Dress for Sunday ditto
2 Petticoats, general use
1 Petticoat, Sunday, ditto
6 Pairs Stockings or Socks
2 Hats
6 Plain Linen Collars or Frills
6 Handkerchiefs
1 Warm Jacket
6 Pairs Drawers
2 Pairs Stays or Bodices
3 Chemises
3 Night Dresses
6 Pinafores or Aprons
1 Rack and 1 Fine Tooth Comb
1 Hair and 1 Tooth Brush
2 Pairs Boots.

Each child to be provided with a Box or Trunk in which to keep Clothing when clean for use. The Clothing in all cases must be Dark Coloured. The Girls' Dresses may be print for Summer wear, and Alpaca, Wincey, or similar material for Winter wear.

Boys' Suits should be of Dark Coloured washing Tweed, or other similar material. (Drill Suits are not to be worn; if sent, parents must provide for having them washed.)

On the children visiting their homes during vacation, it is requested that all clothing be put in thorough repair.

ELLIS ROBINSON,
Honorary Secretary.

Sept. 30, 1883.

SPECIAL INFORMATION.

"The object of this Institution is the educating, and maintenance whilst so doing, of Deaf and Dumb or Blind children, from the age of seven years; to enable them to earn their own living, make them useful members of society, and prevent them becoming, as they would in most cases, a burden upon public charity in after years."

The Institution is open to Subscribers and other Visitors daily —Saturdays, Sundays, and holidays excepted—from 2 to 4 p.m.

The Parents and Friends of children are admitted once a fortnight, on Thursdays, between the hours of 2 and 4 p.m.

The children are permitted to leave the Institution to visit their friends once a month, on special written application being made to the Committee.

Forms and all particulars for the admission of pupils can be obtained of the Honorary Secretary.

Subscriptions and Donations will be thankfully received and acknowledged by the Treasurer, the Secretary, or at the Institution.

The Meetings of Committee are held on the Second Monday in each month, at 4 o'clock p.m. The Ladies Visiting Committee meet at the Institution on the last Friday in the month, at 3 o'clock in the Winter, and half-past 3 o'clock in the Summer months.

Donations of Meat, Vegetables, Fruit (Fresh and Preserved), are thankfully received and acknowledged; also Clothing and Materials for the same will be thankfully accepted.

The cost of passages to and from the Institution must be paid by the friends of the pupils, the Committee having no Fund for this purpose.

All communications to be addressed to Mr. Ellis Robinson, Honorary Secretary, at the Institution, Newtown Road, Sydney.

Money orders should be made payable to the Secretary or Treasurer, at the General Post Office, Sydney.

It is highly necessary that the Parents or Friends of children notify to the Secretary any change of Residence in case of illness, or other cause requiring immediate communication.

The Public, Subscribers, and friends of the Institution, are earnestly entreated to notify the Committee of the existence in their districts of any Deaf and Dumb or Blind Children from 7 to 15 years of age, it having been a source of great regret to the Committee to find that several children have passed the age of admission, simply from their not having come under the notice of some kind friends who would take the necessary steps to enable them to be brought within the advantages of the Institution.

No.

NEW SOUTH WALES

Institution for the Deaf and Dumb and the Blind.

COPY OF FORM OF RECOMMENDATION FOR ADMISSION.

1. State Christian Name and Surname, Age, and Religion of the Child recommended for admission .....

2. State Christian Names and Surnames. Religion of the Father and Mother, also trade or calling, and present residence .....

NOTE.—A reference to these Tables will show that 236 children—185 Deaf and Dumb and 51 Blind—have been received. Of these, 152 have left to return to their friends and homes, 9 being idiotic and beyond the influence of education. 3 died; 81 now remain. In 22 of the families are two or more deaf and dumb. 177 of the children belong to New South Wales, 45 to Queensland, 9 to Tasmania, 3 to New Zealand, 1 to the Friendly Islands, and 1 to South Australia.

Information and Directions relative to the Admission of Children to the Institution.

1. Applications must be in writing, addressed to the Secretary, sent before the child is brought to the Institution, and should contain as full information as possible. The necessary forms can be obtained of the Hon. Secretary.

2. Pupils are admissible from any part of the colony of New South Wales, and, under certain conditions, from Queensland, Tasmania, and New Zealand.

3. No child deficient in intellect, subject to fits, or unable to wash and dress itself, can be considered a fit subject for admission.

4. Children from seven to twelve years of age are eligible for admission, but in no case shall the age be above 15 years.

5. No order will be given by the Committee for a child's admission until the medical certificate has been obtained, and it must be understood that no children are eligible for admission until every means have been tried for restoring their sight or hearing, as the case may be.

6. Children, on entering the Institution, are required to have two complete suits of clothing, for school or week-day wear, to be of dark colour, and a better suit for Sunday, and to be provided with clothing (see list) by their parents or friends during their residence. Each child must be provided with a Box or Trunk, in which to keep clothing when clean. If £5 be remitted, the Committee will purchase outfit on admission.

7. Any amounts remitted to the Secretary for the purchase of clothing will be expended under the direction of the Committee of Management.

8. The fees payable in ordinary cases for the board, education, &c., of children in the Institution, are—£25 per annum; in special cases a lower scale of fees is adopted.

9. In the case of pauper children, a certificate of inability to pay any fee must be obtained from known individuals.

10. The fees are payable in advance, and date from the time of admission.

11. Children cannot be permitted to leave the Institution unless with the direct sanction and authority of the Committee.

12. In addition to the usual educational course, the girls are taught household duties, and the boys out-door and other work.

13. The vacations are 5 weeks at Christmas, and 1 week at Mid-Winter; and it is essential that pupils should return to the Institution on the day fixed to commence duties after each vacation, and with their clothing clean and in proper order. See List.

14. The average term of Residence in the Institution is for Deaf and Dumb pupils 6 to 8 years, and for Blind pupils 3 to 5 years.

15. The parents and friends of children are admitted once a fortnight, on Thursdays, between the hours of 12 noon and 3 p.m.

16. The children are permitted to visit their friends once a month, on special application being made to the Committee.

17. Money Orders should be made payable to the Secretary or Treasurer, at the General Post Office, George-street, Sydney.

18. It is requested that all communications be addressed to the undersigned.

19. Except under special circumstances children will only be admitted at two periods of the year, viz., in January and July.

ELLIS ROBINSON, *Hon. Secretary*,
at the Institution, Newtown Road, Darlington, Sydney.

MARK vii. 32.

They took the silent one to Him
  Who erst had cured the Blind
"O lay Thine hands on him" they cried
  "And ope the darkened mind!"
Was ever prayer addressed in vain
  To Him the Ever Kind?

An upward glance, a pitying sigh,
  A touch, a single word,
And the mute tongue was heard to sing
  Hosannas to the Lord.
"He hath done all things well," they said,
  "O be His named adored!"

The blessed Saviour now has gone
  Up to His home on high
We may not hope to see His face
  Or hear His pitying sigh
Yet though unseen, unheard, we know
  His *presence* still is nigh.

And so we bring *our* Silent Ones
  In faith like them of old,
And plead that they may sharers be
  In His great love untold.
Fain would we see each little lamb
  Safe gathered in His fold.

Oh help us then to seek them out,
  Help us to bring them in,
Be sharers in the work of love
  That strives their souls to win
So in His blessing shall ye share
  Who notes all work for Him.
